LANGUAGE

- English
- Bangla
- Hindi

About Me

I am a Computer Engineering student with growing expertise in digital marketing, AI automation, and workflow systems. I focus on developing intelligent solutions that enhance online presence, communication, and business efficiency.

Currently in the 2nd semester of my Diploma in Computer Technology(2024–28), I am developing skills in modern automation tools, marketing strategies, and Python programming.

My goal is to use technology and automation to help businesses grow faster, smarter, and more efficiently.

WORK EXPERIENCE

2024 – Present

AI Automation Builder (WhatsApp & Messenger)
